My lab.I am trying to use my Sony Vaio G UX850 laptop to print to an Epson Workforce 5 Pro printer. The printer does not show up in the options when I go to Device preferences, check the box for sharing printers. When I try to share the printer from Epson, I get an error 'EPSON SVE141D11U printer driver not available.'Below this message. I have followed the suggestions found on the internet and I have tried the following. I use Windows XP. I have downloaded the drivers from microsoft. I have received the following message. 'Sucessfully installed the printer driver epson mx5150 bluetooth network.'I have searched the web and found that there may be a problem with the printer and Windows XP. I now have the following confirmed. I have a Microsoft epson mx5150 bluetooth network printer. I would like to be able to print to this printer from my Windows XP PC. I currently have the printer shared on my Windows Vista notebook. I am unable to print from the XP notebook. I have downloaded the driver from EPSON. I have also downloaded the printer driver for Vista from EPSON. I have tried installing the Xerox printer driver on the XP notebook. I get 'EPSON SVE141D11U printer driver not available.'below this message. This message is before the installation of the Xerox printer driver. I read that a reinstall of the XP printer drivers for EPSON would fix the problem. I did so and then re-installed the Xerox driver. I still get the same error. sony vaio series sve141d11u drivers for webcam.rar download for philips hdd back up software windows xp, sony vaio sve141d11u drivers for webcam.rar Download Driver Sony Sve141D11U Firmware [CCS834].
